

## From Glasgow to Austria, with a tour through Europe

We started our amazing journey at 11.00pm by road. I will never forget all the memorable moments of my journey.

We reached Dover at 9am and we took the ferry for France. We were so excited to board the ferry because it was the first time my two kids had experienced the ferry. We took lots of photos.

We reached France at 11am. After leaving the ferry, we continued our journey by road. We had short stops in many countries for refreshments. We visited a big, fabulous airport in Germany. At last, after our long travels of 2,000 miles, we arrived in Austria at 3am and I thanked my almighty God that we had reached Austria.

Our family was excited to see us. They gave us a warm welcome. We stayed in Austria for about two weeks, and then we started our journey back to Glasgow.

My husband planned that we would go back via Paris. Again, after a long journey, we reached Paris at 7pm. We were so happy and excited because it was the first time we had visited Paris.

The Eiffel Tower was amazing; I can't express my feeling and enjoyment of the Eiffel Tower; it was wonderful and amazing. We ate delicious pizza there. We sat on different kinds of swings and travelled in a Paris rickshaw.

**It was amazing when the lights of the Eiffel Tower were started.**

The whole Eiffel Tower became hidden inside the beautiful, colourful and shimmering lights.

**The sky was shining too because of the beams of different lights.**

Then we reached the end of our holiday and left Paris. My husband planned to go by train through the tunnel. It was so scary but we reached London in one hour.

At last after a long and wonderful journey, we arrived home safe and sound.
